

## FGO

### TPD SECTION M - POST-NEXUS VERSION

For the purposes of Modification 0604 we set out below the steps followed to create a new version of TPD Section M which reflects the core Project Nexus changes under Modifications 0432 and 0440 and which will replace the existing TPD Section M:

- **Step 1:** As the base document (**Base Document**) we used a "clean" version of the document published on the Joint Office of Gas Transporters' (**JO**) website for Modification 0440 entitled "**21 February 2014 TPD Section M (base 0432 redlined to include 0440 text)**". This document, in addition to showing the amendments made by Modification 0440, also showed the amendments made by Modifications 0428 and 0432 (to the extent that Modification 0440 did not amend, delete or replace such amendments).
- **Step 2:** We updated the Base Document to include amendments made by Modification 0434.
- **Step 3:** We updated the Base Document to include amendments made by modifications implemented between the publication of version 4.26 of TPD Section M (this version formed the base document for the legal text for Modification 0440) and the publication of version 4.90 of TPD Section M (i.e. the current version of TPD Section M published by the JO) (**Non-Nexus Modification**). The Non-Nexus Modifications are identified in the table below. In some cases text introduced by a Non-Nexus Modification has been, or will be, amended, deleted or replaced either by (i) a different Non-Nexus Modification with a later implementation date, or (ii) amendments resulting from modifications which will be implemented on the Project Nexus Implementation Date (**PNID**).
- **Step 4:** We checked to see if there were any Non-Nexus Modifications impacting on TPD Section M which have been approved by Ofgem which have an implementation date prior to PNID; as at \*\* there appear to be no such modifications.
- **Step 5:** We updated the Base Document to include amendments made by modifications impacting on TPD Section M which have been approved by Ofgem and which have an implementation date of PNID (**PNID Modification**).
- **Step 6:** We updated the Base Document to include amendments to TPD Section M made by Modification 0565 (to the extent that such amendments remained applicable to the post-Nexus text).
- **Step 7:** We updated the Base Document to ensure new text introduced under a PNID Modification was consistent with the drafting approach under Modification 0565 (e.g. including references to the CDSP if appropriate).

We have produced a mark-up which shows the changes made to the Base Document, and which therefore shows changes made by Modification 0565 (to the extent that such changes remain applicable to the post-Nexus text) and Modification 0604, as well as changes made under a Non-Nexus Modification or a PNID Modification.

To the extent further changes are necessary as part of the Project Nexus 'sweep up' modification we will be able to show these as changes against this new clean version of TPD Section M.

<b>Modifications which have amended/will amend TPD M since v4.26 (on which our post-Nexus FGO text was based)</b>			
<b>Modification</b>	<b>Implementation Date</b>	<b>UNC version #</b>	<b>Impact on TPD Section M</b>
0345 (Removal of Daily Metered voluntary regime)	1 October 2013	4.31	Removal of cross-references to TPD G1.5.5
0451AV (Individual Settlements for Pre-Payment & Smart Meters)	1 February 2014	4.38	Xoserve to develop an estimated profile for pre-payment meters using the pre-payment usage data from data available from Shippers. Includes references to "pre-payment meters"
0463S (Recognition of the '2nd January' Scottish Bank Holiday as a Business Day for Supply Point related transactions)	14 March 2014	4.41	Replacement of Business Days with Supply Point Systems Business Days to capture discrepancy between English and Scottish bank holidays
0455 (Updating of Meter Information by the Transporter)	27 May 2014	4.44	Provides Transporters with ability to update Meter Information on the Supply Point Register where the Registered User or previous Registered User failed or was unable to perform this function
0503FT (Update of Transporter Procedure Document references within Network Code)	8 August 2014	4.47	Replace previous references to T/PR/GT2 and T/PR/GT3 with GDN/PM/GT2 to show the updated procedures
0477 (Supply Point Registration - Facilitation of Faster Switching)	7 November 2014	4.54	Reducing period between end of Obligation Deadline and Supply Point Registration Date
0512S (Amendment to Section M to be consistent with Faster Switching proposals)	13 March 2015	4.63	Amendment so that relevant Meter Information is not sent by Transporters to a Proposing User until the Objection Deadline
0487V (Introduction of an Advanced Meter Reader (AMR) Service Provider (ASP) Identifier (ASP ID) and Advanced Meter Indicator)	1 April 2015	4.64	Imposes obligation on Shipper to populate and maintain the Advanced Meter Reader Service Provider Identifier
0466AV (Daily Meter Reading Simplification (with improved within day data provision))	1 April 2016	4.83	Proposed simplification of Daily Meter Read procurement

<b>Modifications which have amended/will amend TPD M since v4.26 (on which our post-Nexus FGO text was based)</b>			
<b>Modification</b>	<b>Implementation Date</b>	<b>UNC version #</b>	<b>Impact on TPD Section M</b>
0576 (Generation of an estimated Meter Reading at the Code Cut Off Date in the absence of an actual Meter Reading)	PNID	N/A	Reflects that where a Meter Reading is not present following 1 <sup>st</sup> April in the Formula Year (t) t-6 it the Transporter would calculate an estimated Meter Reading for the Code Cut Off Date.
0583S (Requiring an Opening Meter Reading at same User Confirmation)	PNID	N/A	Removes the condition which restricts the requirement for an Opening Meter Reading to 'new' Users (i.e. transfers of Supply Point Registration) and introduces a requirement for an Opening Meter Reading to be provided in all circumstances where a Supply Point Confirmation is submitted.
