

Stakeholder Discussion Day – Please Come and Have Your Say

Project CLoCC is reducing both the time and cost of connecting onto the National Transmission System (NTS), for new and existing customers, by challenging all aspects of the current connection process so that it works better for you, our potential customers.

Come and have your say and help influence the future direction of this exciting innovation project by taking part in our roundtable discussions. Without your opinions the full potential of this project cannot be realised.

Roundtable Option 1 – New Web-based Customer Connections Portal

Opportunity to view and trial the new web-based Gas Customer Connections Portal Prototype being developed by the project. Influence the final version of what will become your gas connections portal.

Roundtable Option 2 – New Physical Connection Options

Challenge and review the new “plug and play” designs being developed by the project team to help reduce the cost and time of making a gas connection. Discuss the benefits of making a connection to the NTS and how Project CLoCC may now make this type of connection a viable option for you. Share your views on the additional connection options being proposed by the project, e.g. filtration, metering, gas quality analysis, pressure control.

Roundtable Option 3 – Connection Commercial Arrangements

Discuss the flexible commercial arrangements being proposed by the project to meet your needs as our customers. Topics such as reducing the upfront connection costs, streamlining the capacity process and gas quality entry specifications will be discussed.

Stakeholder Discussion Day

Date : 22nd February 2017

Location: National Motorcycle Museum Conference Centre (B92 0EJ)

9:30	Arrive / Morning Refreshments
10:00	- Project Welcome - National Grid Future of Gas Update
10:30	Refreshment Break
10:45	Roundtable Session 1
11:45	Roundtable Session 2
12:45	Networking Lunch / Further time to visit Roundtables (Opportunity to view National Motorcycle Museum)
13:45	Guest Panel Q&A (National Grid Senior Management & External Industry Key Note Speakers)
14:15	Feedback Summary
14:30	Close (Opportunity to view National Motorcycle Museum following the event)

To attend this event please reply to anne-marie.liszczyk@nationalgrid.com by the 25th January indicating your choice of roundtable discussion options in order of preference so that we can allocate your place
