

Project Nexus Update for UK-link Committee 10th June 2010 **as of 3rd June 2010**

Since the last UK-Link Committee update several Project Nexus industry meetings have taken place. The following describes the meetings that have taken place:-

PNAG

There hasn't been a PNAG meeting during the period. The next meeting is planned for 10th June 2010.

PNUNC – 19th May 2010

The meeting ratified the workgroups' final reports for AQ and Reconciliation. The workstream considered whether the aspirations for AQ, Allocation & Reconciliation were complementary. A presentation was prepared by xoserve and the group confirmed that the aspirations for the three principles were compatible. The workstream concluded that for this stage of the project the three principle groups (AQ, Allocation & Reconciliation) had concluded their activities. These subjects will be revisited once the scope of the SMIP DCC is known, Stage 2 of Project Nexus.

The meeting on the 11th June will consider the principles surrounding Retrospective Updates.

More information can be found at: <http://www.gasgovernance.co.uk/nexus/190510>.

PNUNC – AMR Detailed Requirements Workgroup 3, 4&5 - 12th May & 9th June

The meeting on the 12th May discussed where the DM unbundling service requirements should be captured, Distribution or Project Nexus workstream. This is because it was felt that any benefits of unbundling maybe realised ahead the Project Nexus timescales. In addition it was felt the audience for discussion should be broader than that under Project Nexus. A decision will be made over the next few weeks. In the meanwhile Project Nexus is suspending any further work on unbundling of DM.

More information can be found at: <http://www.gasgovernance.co.uk/nexus/120510>.

The main areas for discussion now centre on the issues identified under Supply Point Transfer (Enquiry Process) and Meter Reading. The meeting on the 9th June will walkthrough the 'as-is' Meter Reading processes that had been previously identified as areas that may require amendment. (NDM Cyclic Reads, DM Reads, Change of Supplier Transfer Reads, Prime & Sub Reads and Must Reads)

More information can be found at: <http://www.gasgovernance.co.uk/nexus/090610>.

Future Meetings

PNUNC – 11th June 2010

PNAG – 10th June & 6th July 2010

AMR 6 – 22nd June 2010

AMR 7 - 7th July 2010
