Please summarise (in one paragraph) the key reason(s) for your support/opposition.

Self Governance Statement:

Do you agree with the Modification Panel's decision that this should be a self-governance modification?

We proposed this modification as self-governance and support the Panel's decision that this should be treated as a self-governance modification.

Relevant Objectives:

How would implementation of this modification impact the relevant objectives?

We believe that implementation of the Modification would better facilitate improvements in cost allocation with regard to termination of users within the UNC and reduces gas Shipper community risk to socialised bad debt. Also by avoiding ambiguity it will facilitate efficient implementation and administration of the UNC rules with regards to User termination. Therefore this proposal benefits Relevant Objective D "Securing of effective competition" and Relevant Objective F "Promotion of efficiency in the implementation and administration of the Code"

Impacts and Costs:

What analysis, development and ongoing costs would you face if this modification were implemented?
