| Support or oppose implementation? | Support |
| Relevant Objective: | a) Positive b) Positive |

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We believe that this modification allows a mechanism for large customers to be able to register site specific information with the gas transporters. This information can then be stored and maintained by the transporters and be used during gas emergencies in helping them manage any such emergencies. This modification incentivises large customers to provide contact information to the transporters as it may benefit them during an emergency.

Self-Governance Statement: Please provide your views on the self-governance statement.

We agree with the proposer that this modification meets the self-governance criteria.

Implementation: What lead-time do you wish to see prior to implementation and why?

We agree with the proposer that this should be implemented at the same time as Project Nexus.

Impacts and Costs: What analysis, development and ongoing costs would you face?

None identified

Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?

Yes.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

No.
