

## PROJECT NEXUS

### REQUIREMENTS TRACEABILITY MATRIX

#### **Background**

The responses to the Project Nexus Consultation included a great many comments on the future scope and nature of xoserve's services. This Initial Requirements Register is a collation of those comments. It is not intended to be a definitive set of requirements for Project Nexus. There will be opportunities during the course of the Requirements Definition Phase to modify, add or delete requirements.

#### **Updated Version 9th November 2009**

The IRR now reflects the GAP analysis carried out to identify where the consultation comment would be discussed:- either in the Principles Workgroup, AMR Workgroup or neither. Also, to see if any of the requirements are satisfied by the DM Elective Mod (Mod 0244).
