Project Nexus transition, migration, cutover

5th March 2013

Project Nexus testing, transition, migration, cutover

- Industry wide work on transition, migration and cutover needs to start now

- At the 18th Feb PNUNC the sequencing of functionality was presented

- Work is underway for data cleansing topics

- Work is yet to start on detailed considerations for migration and cutover for settlement reform (Mod 432) services

- High level work has begun on migration for iGT Agency Services

- Xoserve would welcome PNUNC thoughts on this topic

- Xoserve intends to create a document to support the change events

Project Nexus testing, transition, migration, cutover

- PNUNC thoughts on, for example:
  - Industry testing
  - How shippers advise what is migrated to what in terms of the 4 Products
  - Good or less good times to cutover
  - Are there any lessons from previous large implementations to consider e.g. RGMA, Exit Reform etc
- If you have any thoughts etc please submit them to Michele Downes Michele.Downes@xoserve.com for inclusion in a topics register
