New File Formats – Supporting information files	**Not Relevant**	✓
Amendments to existing file types such as but not limited to allowable values	✓	✗

✗ **= No Changes**

✓ **= Changes**

xoserve

respect ❯ commitment ❯ teamwork

Under the 'Notify Shipper of Action' part of the process, there will be some amendments to existing screens and some new screens introduced within CMS.

These screens will be used to manage the flow of data between Xoserve and Shippers. Using these screens, Xoserve can request information / an action from Shippers and Shippers can provide their response / confirmation of completed action.

The amended / new CMS screens will be issued for information.

XOserve

respect > commitment > teamwork

We are currently in the process of finalising the design for this change, and once finalised, we will be able to present the remaining changes. We are anticipating being able to communicate these to you in April.

The additional proposed changes are:

• Confirmation of new Rejection Codes

The actual Resolution text and the text behind the Rejection Codes will be defined in a later stage of the project and communicated to you in the coming months.
