

AQ 2015 High-Level Dates for your Diaries

The AQ Review process is an annual series of events which culminates in the reassessment of the annual quantity (AQ) for all live meter points.

This is a major transactional event whereby an extraordinary volume of data is processed. During this period there are impacts on the way we process SPA files and on the data availability from the Data Enquiry Service (DE) and from the Contact Management Service (CMS). As in previous years, in order to mitigate and minimise any disruption to the industry, an Xoserve project team has been formed to coordinate this years' process.

The AQ Review process is managed via a series of five key processes which can be seen below:

Activity	Start Date	End Date	Status
AQ Calculation process	19 th March 2015	30 th May 2015	To be Initiated
Industry Review of AQ Calculations (Amendment Window)	1 st June 2015	19 th August 2015	To be Initiated
Offer review process	28 th August 2015	14 th September 2015	To be Initiated
Setting AQ values	TBC	TBC	To be Initiated
AQ Go Live	30 th September	1 st October 2015	To be Initiated

****AQ Implementation dates are based on the implementation of the UK Link Replacement Programme. All dates are indicative only.***

The first process, **AQ Calculation**, will commence on March 23rd and will continue until May 30th. During this time Xoserve will provide updates to the industry on a regular basis and will update the Xoserve.Com website throughout the review process.

Should you require further information regarding AQ 2015 activities or the UK Link Replacement Programme, please contact your Xoserve AQ Operational contact via aqq.spa@xoserve.com.
