

Revised LDZ Shrinkage Arrangements Gemini Release (UKL13958) Update

Implementation successfully completed

The 'Revised LDZ Shrinkage Arrangements' change was implemented as part of the Gemini Summer Release on Sunday 17th August 2008.

The changes were effective from 10:00. It was necessary to extend the outage by an hour, from the planned 09:00 completion, to ensure amendments to Internal National Grid systems were aligned with the Gemini Release.

I would like to take this opportunity to thank all parties involved in ensuring this implementation was successful.
