

UNC Modifications – Consumer Impact Assessment

The information in this document is intended to become the guidance for completion of Consumer Impact Assessments during the Workgroup phase of a modification cycle, such that the Workgroup Report better informs the subsequent consultation and recommendation/decision phases of the process.

It is anticipated that the table will be inserted in entirety into the Workgroup Report template to ensure that assessments are completed. To aid consistency, a number of market-level assumptions have been made – these can be re-assessed periodically by the UNC Panel.

Criteria	Extent of Impact
1. Which Consumer groups are affected?	<p><i>Please consider each group and delete if not applicable.</i></p> <ul style="list-style-type: none"> • Domestic Consumers • Small non-domestic Consumers • Large non-domestic Consumers • Very Large Consumers
2. What costs or benefits will pass through to them?	<p><i>Please explain what costs will ultimately flow through to each Consumer group. If no costs pass through to Consumers, please explain why. Use the General Market Assumptions approved by Panel to express as 'cost per consumer'.</i></p> <p>Insert text here</p>
3. When will these costs/benefits impact upon consumers?	<p><i>Unless this is 'immediately on implementation', please explain any deferred impact.</i></p> <p>Insert text here</p>
4. Are there any other Consumer Impacts?	<p><i>Prompts:</i></p> <p><i>Are there any impacts on switching?</i></p> <p><i>Is the provision of information affected?</i></p> <p><i>Are Product Classes affected?</i></p> <p>Insert text here</p>

General Market Assumptions as at December 2016 (to underpin the Costs analysis):

Number of Domestic consumers	21million
Number of non-domestic consumers <73,200 kWh/annum	500,000
Number of consumers between 73,200 and 732,000 kWh/annum	250,000
Number of very large consumers >732,000 kWh/annum	26,000
