1 Summary

What

This modification identifies measures necessary to ensure the Xoserve Funding, Governance and Ownership (FGO) arrangements continue to be effective upon implementation of Project Nexus by aligning the amended services to the CDSP direct and agency service structure.

Why

Subject to approval by the Authority, the FGO arrangements are planned to be implemented on 01 April 2017, and before the implementation of Project Nexus on 01 June 2017. Consequently the FGO arrangements do not reflect certain elements of the Project Nexus arrangements and the provided CDSP services would therefore not be reflective of the contractual requirements.

How

Modification of the UNC is required to amend the FGO arrangements planned to be introduced under UNC Modification 0565/A/B 'Central Data Service Provider – General framework and obligations'. These changes are necessary to reflect the services introduced by Modifications 0432, 0434 and 0440 to the CDSP direct and agency service structure created by Modification 0565/A/B.

2 Governance

Justification for Urgency, Authority Direction or Self-Governance

The Modification Panel determined that this is a Self-Governance modification. This is because the modification is not expected to have a material effect on UNC parties, Independent Gas Transporters (iGTs) or the CDSP. The changes are largely concerned with ensuring relevant Code provisions (TPD Sections E, G, H and M) identified within this Modification are updated to reflect the post Project Nexus versions of this text.

Requested Next Steps

This modification should:

- be subject to self-governance
- proceed to Consultation

Rationale for requested next steps inserted here

3 Why Change?

It had originally been anticipated that Modification 0565/A/B would be implemented after the Project Nexus Implementation Date (PNID). Following the deferral of PNID to 01 June 2017 the strategy for FGO arrangements was modified to maintain the 01 April 2017 implementation of 0565/A/B with the expectation that further amendments were required to align with Modifications 0432, 0434 and 0440 (together comprising the Project Nexus changes).

It should be noted that Modification 0565A is to be implemented on 01 April 2017. However, the changes described in this modification are agnostic to Modification 0565A; hence it should proceed without further reference to it.

4 Code Specific Matters

Reference Documents

The Data Services Contract (DSC) proposed under Modification 0565/A/B.

Knowledge/Skills

No specific skills or knowledge are necessary.

5 Solution

Modification of the UNC (and DSC) is proposed as follows:

- UNC - to assign CDSP functions and services, in accordance with the principles established by the Ofgem FGO review of Xoserve and implemented by Modification 0565/A/B, to the Project Nexus text created by Modifications 0432, 0434 and 0440. The affected Sections of the UNC are TPD Sections E, G, H and M. The changes to these Sections reflect the following:
 - o identical approach to preparation of pre-Nexus text.
 - o identify relevant direct and agency functions to be performed by the CDSP.
 - o replace references to 'the Transporter' with 'the CDSP' in respect of direct functions.
 - o remove discretions where not recognised by UK Link functionality.
 - o include new data flows between Transporter, CDSP and Users where required.
- Text also updated to include other changes to have effect from PNID.
- The Modification will delete all existing text and replace with new 'clean' Nexus and FGO compliant versions of TPD Sections E, G, H and M.
- DSC - to amend the Service Description Table accordingly.

This Modification aligns the 0432, 0434 and 0440 services to the CDSP direct and agency service structure created by Modification 0565/A/B. The actual services to be provided by Modifications 0432, 0434 and 0440, are not amended in any way by this modification.

6 Impacts & Other Considerations

Does this modification impact a Significant Code Review (SCR) or other significant industry change projects, if so, how?

This modification has no impact on the SCR.

Neither would it have an impact on systems being implemented as part of Project Nexus.

Consumer Impacts

No consumer impacts have been identified.

Consumer Impact Assessment <i>(Workgroup assessment of proposer initial view or subsequent information)</i>	
Criteria	Extent of Impact
Which Consumer groups are affected?	<ul style="list-style-type: none"> • Domestic Consumers • Small non-domestic Consumers • Large non-domestic Consumers • Very Large Consumers
What costs or benefits will pass through to them?	<p><i>Please explain what costs will ultimately flow through to each Consumer group. If no costs pass through to Consumers, please explain why. Use the General Market Assumptions approved by Panel to express as 'cost per consumer'.</i></p> <p>Insert text here</p>
When will these costs/benefits impact upon consumers?	<p><i>Unless this is 'immediately on implementation', please explain any deferred impact.</i></p> <p>Insert text here</p>
Are there any other Consumer Impacts?	<p><i>Prompts:</i></p> <p><i>Are there any impacts on switching?</i></p> <p><i>Is the provision of information affected?</i></p> <p><i>Are Product Classes affected?</i></p> <p>Insert text here</p>
General Market Assumptions as at December 2016 (to underpin the Costs analysis)	
<i>Number of Domestic consumers</i>	<i>21 million</i>
<i>Number of non-domestic consumers <73,200 kWh/annum</i>	<i>500,000</i>
<i>Number of consumers between 73,200 and 732,000 kWh/annum</i>	<i>250,000</i>
<i>Number of very large consumers >732,000 kWh/annum</i>	<i>26,000</i>

Cross Code Impacts

It is likely that changes to the iGT Network Code may be necessary. It will be noted that iGT UNC Modification Proposal iGT086 - CDSP Changes, raised by Brookfield Utilities UK, is in progress under iGT UNC governance.

EU Code Impacts

No EU Code impacts have been identified.

Central Systems Impacts

There are no central systems impacts.

Workgroup Impact Assessment

User Pays

User Pays <i>(Workgroup assessment of proposer initial view or subsequent information)</i>	
Classification of the modification as User Pays, or not, and the justification for such classification.	No User Pays service would be created or amended by implementation of this modification and it is not, therefore, classified as a User Pays Modification.
Identification of Users of the service, the proposed split of the recovery between Gas Transporters and Users for User Pays costs and the justification for such view.	N/A
Proposed charge(s) for application of User Pays charges to Shippers.	N/A
Proposed charge for inclusion in the Agency Charging Statement (ACS) – to be completed upon receipt of a cost estimate from Xoserve.	N/A

7 Relevant Objectives

Impact of the modification on the Relevant Objectives:	
Relevant Objective	Identified impact
a) Efficient and economic operation of the pipe-line system.	None
b) Coordinated, efficient and economic operation of (i) the combined pipe-line system, and/ or (ii) the pipe-line system of one or more other relevant gas transporters.	None
c) Efficient discharge of the licensee's obligations.	None
d) Securing of effective competition: (i) between relevant shippers; (ii) between relevant suppliers; and/or (iii) between DN operators (who have entered into transportation arrangements with other relevant gas transporters) and relevant shippers.	None
e) Provision of reasonable economic incentives for relevant suppliers to secure that the domestic customer supply security standards... are satisfied as respects the availability of gas to their domestic customers.	None
f) Promotion of efficiency in the implementation and administration of the Code.	Positive

g) Compliance with the Regulation and any relevant legally binding decisions of the European Commission and/or the Agency for the Co-operation of Energy Regulators.	None
--	------

This modification can be expected to further relevant objective (f) *Promotion of efficiency in the implementation and administration of the Code* because it ensures that the new/amended services introduced as part of Project Nexus are defined within the appropriate UNC texts and related documents. This enables due governance and oversight to be effective, as intended by the original FGO Modification 0565A.

8 Implementation

As self-governance procedures are proposed, implementation could be sixteen business days after a Modification Panel decision to implement, subject to no Appeal being raised. However, implementation of this modification is required on PNID, expected to be 01 June 2017.

9 Legal Text

Insert Proposers Suggested Legal Text where provided and not superseded by Transporters Text.

Legal text will be drawn up by the relevant Transporter at a time when the modification is sufficiently developed in line with the [Legal Text Guidance Document](#).

Legal Text has been provided by [name] and is [included below/published alongside this report]. The Workgroup has considered the Legal Text and is satisfied that it meets the intent of the Solution.

10 Recommendations

Workgroup’s Recommendation to Panel

The Workgroup asks Panel to agree that:

- This self-governance modification should proceed to consultation.
