UNC Modification Proposal 0632S - Shipper asset details reconciliation

Dear Bob,

Thank you for your invitation seeking representations with respect to the above Modification Proposal which Cadent would like to support.

### **Do you support or oppose implementation?**

Support

### **Relevant Objective:**

f) Positive

### **Reason for support/opposition:**

The Modification Proposal clarifies the obligation on Shipper Users to not only notify the CDSP when a Smart Meter is installed at a Supply Meter Point but to also notify them of the information as set out within Annex M-1, when the Shipper User becomes aware that a Smart Meter has been installed at a Supply Meter Point.

This clarification of UNC should assist the stated aim of the Modification Proposal in closing the gap between the numbers of 'Smart' and 'AMR' meters recorded on the UK Link System and the numbers of such reported to BEIS as having been installed.

In addition the Modification Proposal also adds clarity to the UNC in terms of further defining 'Smart' and 'Advanced' Meters as being in accordance with the relevant Supplier Licence Condition.

## **Self-Governance Statement:**

We agree with the Self-Governance Statement within the modification that this is a non-material change to the UNC and therefore can be subject to Self-Governance.

## **Implementation**

We concur that this Modification Proposal can be implemented sixteen Business Days after a Modification Panel decision.

## **Impacts and Costs**

No impacts or costs have been identified.

## **Legal Text**

As providers of the Legal Text, Cadent is satisfied that the legal drafting and supporting text commentary contained within the Draft Modification Report meets the requirements and intent of the Modification.

## **Are there any errors or omissions in this Modification Report that you think should be taken into account?**

We have not identified any errors or omissions.

## **Please provide below any additional analysis or information to support your representation**

We have nothing further to add.

We trust that this information will assist in the compilation of the Final Modification Report. Please contact me on 07884 113385 ([andy.clasper@cadentgas.com](mailto:andy.clasper@cadentgas.com)) should you require any further information.

Yours sincerely,

Andy Clasper
