<b>Support or oppose implementation?</b>	Support
<b>Relevant Objective:</b>	d) (ii) Positive

**Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)**

Suppliers currently do not have access to the same domestic consumer data that is available to PCWs following implementation of UNC Modification 0593V, but they also offer price comparison services to end consumers. We, therefore, agree with the proposer that suppliers would benefit from the same data provisions being made available to them as are available to PCWs, and that this enabling modification, which seeks to grant permission to release domestic consumer data to Suppliers, will achieve this purpose.

**Self-Governance Statement: Please provide your views on the self-governance statement.**

We agree with the proposer that the modification meets the self-governance criteria.

**Implementation: What lead-time do you wish to see prior to implementation and why?**

The modification should be implemented as soon as possible in line with self-governance timescales.

**Impacts and Costs: What analysis, development and ongoing costs would you face?**

None identified.

**Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?**

Yes.

**Are there any errors or omissions in this Modification Report that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

No.

**Please provide below any additional analysis or information to support your representation**
