

## Representation - Draft Modification Report UNC 0645S

### Amending the oxygen content limit in the Network Entry Agreement at South Hook LNG

Responses invited by: **5pm on 27 April 2018**

To: [enquiries@gasgovernance.co.uk](mailto:enquiries@gasgovernance.co.uk)

<b>Representative:</b>	Graham Jack
<b>Organisation:</b>	British Gas Trading Limited
<b>Date of Representation:</b>	25th April 2018
<b>Support or oppose implementation?</b>	Support
<b>Relevant Objective:</b>	d) Positive

**Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)**

Implementation of this proposal will facilitate the effective supply of gas to the GB market, support gas security of supply and facilitate competition between shippers and between suppliers. Heat map analysis by National Grid did not suggest any negative outcomes for potentially sensitive sites such as gas storage facilities or gas-fired power stations.

**Self-Governance Statement: Please provide your views on the self-governance statement.**

Self-governance is appropriate.

**Implementation: What lead-time do you wish to see prior to implementation and why?**

As soon as reasonably practicable.

**Impacts and Costs: What analysis, development and ongoing costs would you face?**

None identified.

**Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?**

Not relevant as this is a facilitating modification proposal.

**Are there any errors or omissions in this Modification Report that you think should be taken into account? Include details of any impacts/costs to your organisation that are directly related to this.**

**Please provide below any additional analysis or information to support your representation**
