

Outstanding Action 0804 - Transporters to provide a view on the approach to be taken for support transitional arrangements from the current to the future regime.

WWU response:

If the transfer of obligations to Shippers took place before the end of WWU's contract with its DMSP (NGM) then WWU would work with our NGM to allow Shippers to take make use of the assets currently used to provide transporter provided Class 1 reads should Shippers wish to do this. This approach was successfully used when what used to be called DM Voluntary service ended in March 2018.

WWU's contract with NGM ends on 31st March 2020, we would like the transfer to take place by this date, if this is not possible we will need to put in an extension with NGM the terms of which have not yet been discussed.
