Dear Colleague

**Invitation Notice to Participate in the
January 2019 NTS Entry Capacity Retainer Windows**

In accordance with the Gas National Transmission System (“**NTS**”) Entry Capacity Substitution Methodology Statement¹ (“**ECS**”) and pursuant to Transportation Principal Document (“**TPD**”) Section B2.15 of the Uniform Network Code (“**UNC**”), National Grid NTS invites Users to participate in the January 2019 Retainer Window as defined below. Users will be able to exclude NTS Entry Capacity at potential donor Aggregate System Entry Points (“**ASEPs**”) from being treated as Substitutable Capacity² without having to buy and be allocated, the capacity by obtaining a “Retainer”. Further provisions of which are set out in the ECS.

<https://www.nationalgridgas.com/capacity/capacity-methodology-statements>

Users may make applications for a Retainer in respect of all Quarters of any Gas Year(s) in the period 1st October 2022 to 30th September 2025 inclusive (the “Capacity Period”) in accordance with the provisions of this Invitation Notice. Where no relevant Gas Year is specified by a User in its Retainer request, the default Gas Year of October 2022 to September 2023 will be applied.

Please refer to the Joint Office website (<http://www.gasgovernance.co.uk/livemods>) with regards to any outstanding modification which may affect capacity during the transaction period.

^A This document is one of a suite of documents that describe the release of incremental capacity by National Grid NTS and the methodologies behind them and can be found on our website at: <https://www.nationalgridgas.com/capacity/capacity-methodology-statements>

^B As defined in the ECS.

The “Retainer Windows” referred to above means the dates when Users will be able to request Retainers in accordance with this Invitation Notice. These dates are:

Tuesday 15th January 2019

Each Retainer Window will commence at 08:00 and close at 17:00. Retainer requests must be made by facsimile using the pro-forma in Appendix 2 of this Invitation Notice. Retainer requests may only be removed or amended where National Grid NTS identifies a blatant error and agrees such removal or amendment with the User before 17:00 on the day of the relevant Retainer Window on which the Retainer request is submitted. National Grid NTS will endeavour to provide confirmation of receipt of a Retainer request where practicable by 16:00 and by no later than 18:00 hours on the day of the Retainer Window on which the Retainer request is submitted.

A copy of the Terms and Conditions relating to NTS Entry Capacity Retention (the “Terms”) for the January 2019 Retainer Windows are attached as Appendix 3 of this Invitation Notice. A User may only participate in the Retainer window following its acceptance of the Terms by no later than 16:00 on Friday 11th January 2019 and such acceptance must be communicated to National Grid NTS by fax to the Capacity Auctions Team at +44 (0)1926 65 4059, using the pro-forma contained in Appendix 1 of this invitation notice.

Provision of Retained Capacity Information

As specified in the ECS, in respect of each potential donor ASEP where one or more Retainer requests have been granted, National Grid NTS shall publish the aggregate quantity covered by those Retainers and the adjusted maximum retainer quantity.

Such publication shall be made on the National Grid website via <http://mip-prod-web.azurewebsites.net/EntryCapacityAuctions/Index> by no later than 20:00 hours on the day of each Retainer Window.

Please use the following search criteria to view the results:

Auction Type:	Quarterly System Entry Capacity
Report Type:	Allocation Results
From Year	2020
To Year	2035
From Month	October
To Month	September

In respect of each potential donor ASEP where one or more Retainer requests have been granted to a Shipper User, National Grid NTS will also notify such Shipper User of the Retainer granted to it and the relevant ASEPs and quantities. Such notification shall be made by 20:00 hours on the day of the Retainer Window on which the Retainer request(s) was submitted.

Substitutable Capacity

The maximum Substitutable Capacity quantities in respect of which Retainers may be requested for each Gas Year in the Capacity Period in respect of each ASEP are shown in Table 1 attached to this Invitation Notice.

NTS Entry Capacity Retention Charges

Pursuant to TPD Section B2.15 of the UNC a NTS Entry Capacity Retention Charge (“Charge”) shall apply to any Retainer arrangement. In accordance with the Gas Transmission Transportation Charging Statement a charge rate of 0.2922p/kWh³ shall apply to all granted Retainers at all ASEPs. The Retainer will be subject to a one-off Charge and will be payable via an ad-hoc invoice raised within two months of the Quarterly System Entry Capacity (“QSEC”) auction allocations being confirmed; i.e. in July for a March auction.

The Retainer is intended to retain capacity at an ASEP for Users to obtain at a later date. If retained capacity is subsequently booked at the ASEP where the Retainer was taken out, the Charge may be refunded. Conversely, in the event that the retained capacity is not obtained later the Charge would not be refunded. Please see the ECS for further information.
