

Demand Estimation Sub-Committee (DESC) Key Messages - 5th July 2023

Agenda Item Outcomes

Agenda Item 2.0: Review DESC Representations on 2023/24 NDM Algorithms

- DESC have concluded it's review of the draft NDM Algorithms for Gas Year 2023/24 and voted unanimously to commence to the next phase of consultation, which is to ask for comments from the wider industry on this year's profiles.
- The Joint Office issued a notification on Thursday 6th July which confirms the closing date for any UNC party that wishes to make a representation is Friday 14th July. DESC will then consider any final comments at its meeting on Wednesday 19th July.

Agenda Item 3.0: Seasonal Normal Review 2025

- DESC approved the **update** of the existing Climate Change Methodology and Data (to support Seasonal Normal Review 2025) via an engagement with the Met Office

Material presented to DESC on all the above items are available [here](#)
