Modification Panel decision	17 Aug 2017		

1 Summary

What

When drafting the initial DSC Committee representations, consideration was given to how to manage under representation in any Class of Representative. The modification enabled voting to be redistributed to other classes whilst maintaining a balanced representation.

The Voting process envisaged a once per year event that parties could be elected on to DSC Committees, however no consideration was given during the development of the proposal to a representative coming forward mid-year and wishing to represent their class from their own constituency members, or how to replace a Committee Representative that stands down mid-term.

Why

The governance model is constituency based and it would be beneficial if all classes of parties were able to be represented by members of their own constituency – this would ensure that the views of those parties were fully reflected in the decisions of those committees. The current model doesn't facilitate a class of party wishing to be more engaged in the DSC management.

How

The proposal sets out a transparent process to enable a Class Representative to take up the representation on the DSC Committees whilst at the same time establishing the retirement of the additional representation from outside their class, these business rules will also be used in the event that a DSC Committee Representative steps down mid appointment term.

2 Governance

Justification for Self-Governance

The modification should be subject to Self-governance procedures. While the proposal affects the governance of the changes processes for the DSC and therefore may affect classes of parties, the changes are not material and do not change the intentions of maintaining a balanced representation on the DSC Committees.

Requested Next Steps

This modification should:

- [issued to consultation.](#)

3 Why Change?

Section D of the UNC includes Annex D-2 which sets out how voting on DSC Committees is established and how parties are represented. The Code introduces the concept of elected representatives for the DSC Committees and how and when those elections should be conducted. The rules also set out how, where there are insufficient parties coming forward for a Class of Representative, voting can be maintained in a balanced manner. The rules however do not envisage a party who wishes to take on the

responsibility of representing their class of party taking on that role between elections or who may wish to step down mid-term and a replacement representative may be appointed.

4 Code Specific Matters

The code needs to establish rules to allow representation to be transferred to a representative of an under-represented class and for retirement of the substitute representative, as well as for an Committee Representative to step down mid-term and be replaced. The rules should set out when this may occur, and what steps should be taken to give effect to the change of representative.

5 Solution

Within-Year Change of DSC Class Representative

Who can instigate a change of Representative?

- A class of party whose whole class of votes were transferred to another Class during the election process, or
- A party who wishes to take up a vacancy within their class of Representatives, either due to insufficient elected representatives having been appointed in the annual election cycle or the retirement of an existing elected representative.

When can a Within Year change be introduced to the DSC Committees?

This process can only be initiated prior to 01 July in any appointment year, because the Joint Office expects to conduct an annual election process for all code committees, and adhoc elections should only be considered in exceptional circumstances. In the event that it is too close to the next election cycle, then the Representative's Standing Alternate will assume the role, until the annual election cycle.

What process should be followed?

A party who wishes to take up the representation of their class where representation has been transferred to another class, or there is a vacancy in that class, should make a request to the Joint Office to invoke a change of representation. The request must be accompanied by a proposer and a seconder.

On the retirement of an existing DSC Committee Representative, the Joint Office should consider whether to conduct an election for a new representative, giving consideration to the timeline between the retirement taking effect and the next annual election cycle. If there is sufficient time, the Joint Office will begin the process to seek nominations for new representatives.

The Joint Office should notify the Single Point of Contacts (SPOC) for the affected Class (based on the currently confirmed Class for the DSC Committees), The Joint Office should also notify the affected substitute representative of the request to substitute representation.

The notification to the SPOCs of the affected Class should set out the details of the proposed representative and allow a period of time for consideration/consultation – a minimum of 15 calendar days should be allowed. Additionally, the notification should invite the represented class to consider whether they wish to put forward additional and/or competing candidates, which if there are more candidates than vacancies identified through this process then an election must be conducted by the Joint Office, if there are the same number of nominees to vacancies, then the Joint Office will notify the candidate representatives that they have been appointed.

The substitute representative will be notified at the end of the 15-day period of whether an election is to be held. If no election is required the substitute representative will retire immediately (as will any nominated standing alternate), if an election is required the substitute representative (or their standing alternate) will remain in place until the election is complete, and will then retire.

The Joint Office will conduct an adhoc election, if it is required, and it will follow the principles of the existing UNC Appointments Process, however the timeline could be accelerated to facilitate a timely transition to the new representative, with the agreement of the UNCC.

6 Impacts & Other Considerations

Does this modification impact a Significant Code Review (SCR) or other significant industry change projects, if so, how?

None

Consumer Impacts

None

Cross Code Impacts

None

EU Code Impacts

None

Central Systems Impacts

None – this is a governance issue.

7 Relevant Objectives

Impact of the modification on the Relevant Objectives:	
Relevant Objective	Identified impact
a) Efficient and economic operation of the pipe-line system.	None
b) Coordinated, efficient and economic operation of (i) the combined pipe-line system, and/ or (ii) the pipe-line system of one or more other relevant gas transporters.	None
c) Efficient discharge of the licensee's obligations.	None
d) Securing of effective competition: (i) between relevant shippers; (ii) between relevant suppliers; and/or (iii) between DN operators (who have entered into transportation arrangements with other relevant gas transporters) and relevant	None

shippers.	
e) Provision of reasonable economic incentives for relevant suppliers to secure that the domestic customer supply security standards... are satisfied as respects the availability of gas to their domestic customers.	None
f) Promotion of efficiency in the implementation and administration of the Code.	Positive
g) Compliance with the Regulation and any relevant legally binding decisions of the European Commission and/or the Agency for the Co-operation of Energy Regulators.	None

The change furthers relevant object f) Promotion of efficiency in the implementation and administration of the Code. The change improves the governance of the DSC Committees by introducing new rules to enable the fullest participation in the DSC Committees by permitting a change of representative between elections. The documented process for a change of representative for within-year Class Substitute Representatives improves the governance arrangement by adding clarity and assurance that parties can step into their roles outside the current election process, if necessary and appropriate.

8 Implementation

As self-governance procedures are proposed, implementation could be sixteen business days after a Modification Panel decision to implement, subject to no Appeal being raised.

The change should be implemented as soon as possible, so that in the event that a party who hasn't got a representative of their constituency in a Class of Representatives can take up a role at the earliest opportunity.
