

## **Industry update from Ofgem – up to date as of 5 September 2017**

### ***Decision on Fleetwood entry point in gas transmission***

On 4 August we published our decision to remove £277.5 million from NGGT's price control allowances in respect of the Fleetwood NTS entry point, and to lower the entry capacity obligation from 650 GWh/day to 350 GWh/day. More information can be found at the following URL:

### ***Statutory consultation under Section 23 of the Gas Act 1986 – Fleetwood entry capacity obligation***

On 29 August 2017, we published a statutory consultation on changes to National Grid Gas's gas transporter licence to reduce the amount of capacity obligated to be released at Fleetwood from December 2017. The proposed licence changes will reduce the amount of obligated capacity from 650 GWh/day to 350 GWh/day. More information can be found at the following URL:

### ***Ofgem's new strategy for regulating the future energy system***

On 4 August 2017 we launched a new strategy for regulating the future energy system, which sets out our regulatory approach to keep pace with major changes in how we are generating and using energy in Britain. It aims to deliver a regulatory framework that drives innovation, supports the transformation to a low carbon energy system and delivers the sustainable, resilient, and affordable services that all consumers need. More information can be found at the following URL:
