Your Reference: UNC Modification Proposal 0637S

UNC Modification Proposal 0637S - Amending the permissions to release data to Meter Asset Provider organisations

Dear Bob,

Thank you for your invitation seeking representations with respect to the above Modification Proposal for which Cadent would like to support.

Do you support or oppose implementation?

Support

Relevant Objective: d) positive

Reason for support/opposition:

This proposal would be expected to improve the process for the 10-15% of data requests which currently fail validation. We understand that the data requests are failing, not due to 'incorrect' meter model information being provided but for reason of different parties utilising varying naming conventions for the same meter model. Our view is that providing just the MPRN and meter serial number should be sufficient to demonstrate an entitlement to the requested data.

Self-Governance Statement:

We agree with the Self-Governance Statement within the modification that this is a non-material change to the UNC and can be subject to Self-Governance.

Implementation

This Modification Proposal can be implemented with immediate effect.

Impacts and Costs

No impacts or costs have been identified.

Legal Text

As providers of the Legal Text, Cadent is satisfied that the legal drafting and supporting text commentary contained within the Draft Modification Report meets the requirements and intent of the Modification.

Are there any errors or omissions in this Modification Report that you think should be taken into account?

We have not identified any errors or omissions.

Please provide below any additional analysis or information to support your representation

Not applicable.

We trust that this information will assist in the compilation of the Final Modification Report. Please contact me on 07884 113385 (andy.clasper@cadentgas.com) should you require any further information.

Yours sincerely,

Andy Clasper
