24th July 2018

Dear Colleague,

**Early Closure of Ad-Hoc Invitation to Participate in Auction
of Quarterly System Entry Capacity**

In accordance with paragraph B2.2.19 of the UNC, National Grid has closed the Ad-hoc Invitation for Quarterly System Entry Capacity early. This has occurred because the Stability Groups (as determined in accordance with section B2.2.17 of the UNC) that changed between the first Interim Bid Window held on Monday 23rd July and the second Interim Bid Window held on Tuesday 24th July were zero.

The final allocation will be determined by application of the tests described in National Grids Incremental Entry Capacity Release (IECR) statement.

National Grid will inform Users of their QSEC capacity allocation within Gemini (via the bid information screen) no later than ten business days after the last invitation date and therefore, at the latest by 17th August 2018.

The following information will be published by National Grid within Gemini (via the MoS reports) and also on the National Grid website not later than one calendar day after informing Users of their QSEC capacity allocation and therefore, by 18th August 2018.

For each ASEP and each relevant period;

- Volume of Baseline, Obligated Incremental and Non-Obligated Incremental capacity allocated
- Revenue from sales of Baseline, Obligated Incremental and Non-Obligated Incremental capacity
- Amount of unallocated Baseline Capacity
- Clearing Price (This will be the same as the highest, lowest and weighted average prices)
- The number of Users who submitted successful capacity bids

- The number of Users who submitted unsuccessful capacity bids
- Where there is an allocation of QSEC in a period - number of Users who submitted bids at each price level
