**Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)**

We support this Modification proposal as it will clarify the governance process around Self-Governance modifications with alternates. It also introduces a mechanism which allows for a scenario where an alternate modification is under a different governance route, under the solution it will receive equitable management by treating the Self-Governance modification with the governance path of the higher precedence modification.

**Self-Governance Statement:** *Please provide your views on the self-governance statement.*

We agree that it is appropriate for this Modification to be sent to the Authority for direction, due to amendments to the Modification Rules.

This Modification should be implemented as soon as possible following an Authority decision.
