

# Gas Charging Review UNC0621

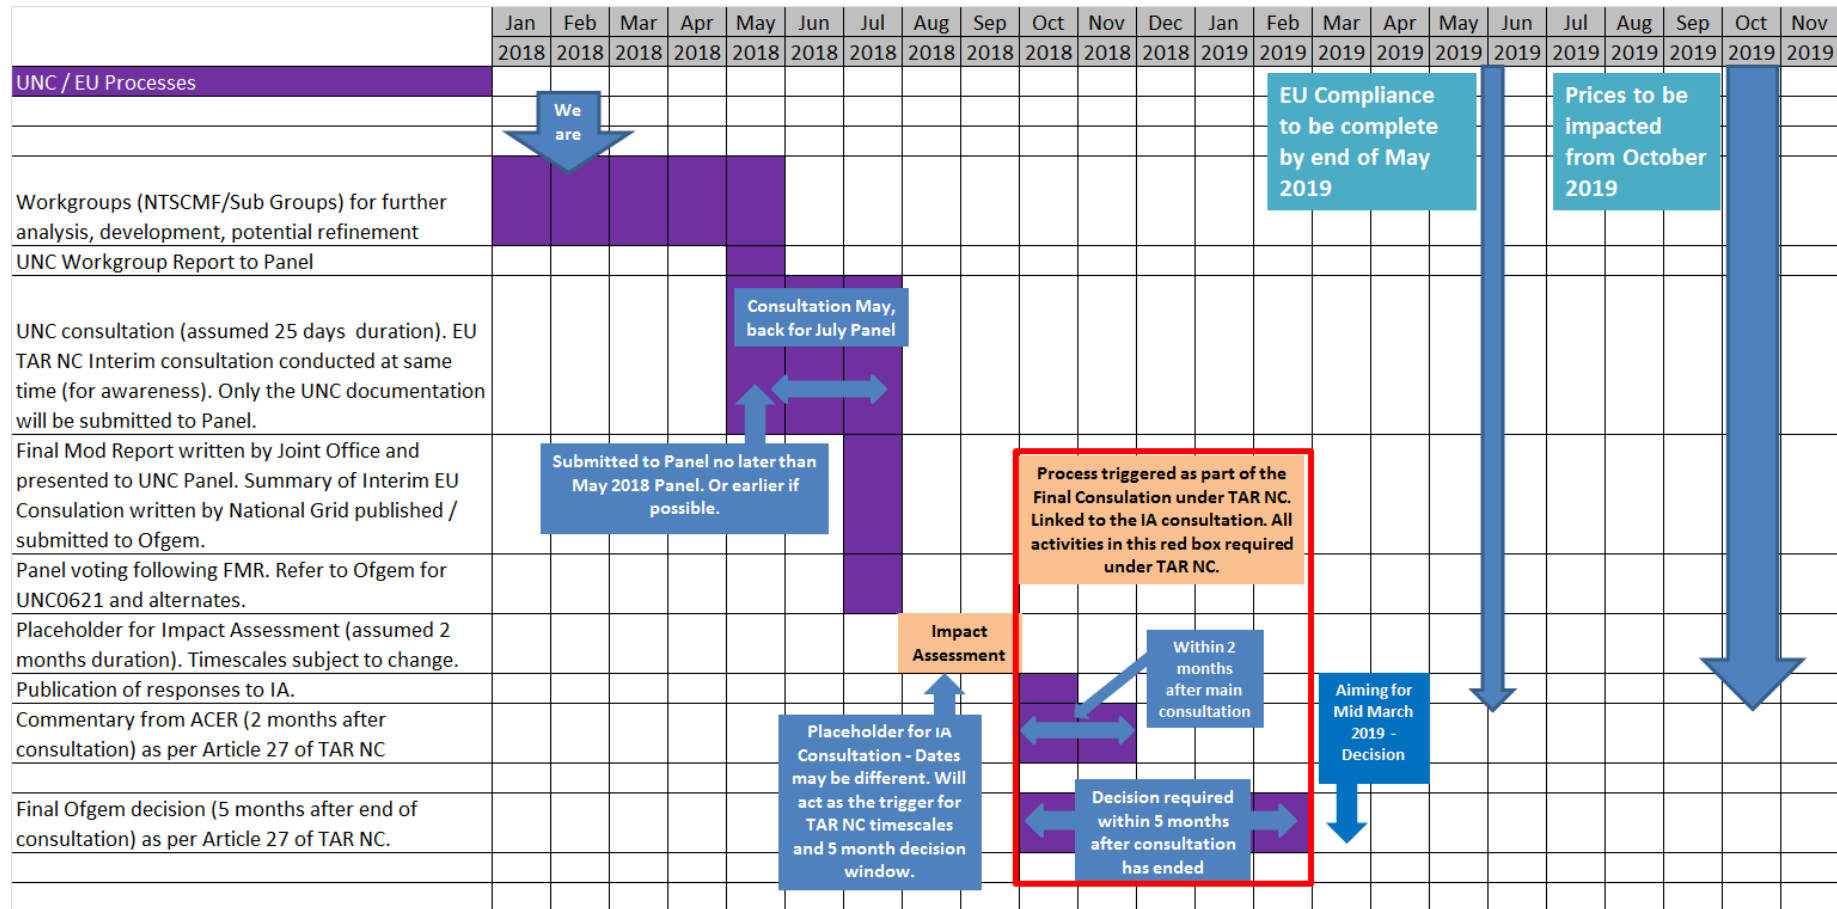

UNC Panel 15 February 2018  
UNC0621 Timelines

## Possible Revised Plan Timescales

---

- Drivers for timescales and the updates presented:
  - Compliance with EU Tariffs Code (May 2019)
  - Decision by mid march 2019 at latest required in order to calculate 2019 charges
  - UNC processes required to be completed before Impact Assessment
- As a result of all the required steps and working back from compliance date it is proposed that the Workgroup report requested no later than May 2018.

# Gas Charging Review: Potential Timescales for UNC / EU processes (Inc. 621)

# Gas Charging Review: Possible Revised Plan Timescales

---

- For awareness
  - UNC0621 is the modification that is delivering charging changes (Gas Charging Review) that includes compliance with the EU Tariffs Code.
  - If the UNC dates (e.g. Workgroup report getting to May Panel) were put at risk then it may require discussion at Panel for potential ways to address within the relevant processes.
  - Through workgroups alternative modifications are being requested by 2 March 18 for March Panel.
