Date of Representation:	27 th April 2020
Support or oppose implementation?	Support
Relevant Objective:	a) Positive d) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We appreciate the prompt action by the UNC with the urgent consideration of modification 0723 and others. We support the modification for the benefits to NDM class 3 and 4 for Annual Quantity (AQ) calculations, energy allocation and UIG, so providing some protection against some non-commodity charges.

However, we'd welcome consideration of actions on wider costs around fixed and standing charges for sites and for the larger consuming Class 1 and 2 sites.

Implementation: *What lead-time do you wish to see prior to implementation and why?*
