UNC Modification Proposal 0724(Urgent) - Amendment to Ratchet charges during COVID-19 period

Dear Bob,

Thank you for your invitation seeking representations with respect to the above Modification Proposal which Cadent would like to support.

Do you support or oppose implementation?

Support

Relevant Objective:

a) Positive

Reason for support/opposition:

The modification if implemented would, for the Covid-19 period, disapply Ratchet Charges where they occurred at relevant Supply Points which have increased consumption above the 'booked SOQ' as a result of assisting the Covid-19 response. The modification also allows the Shipper to reduce the resultant 'ratcheted' SOQ back down to pre ratchet levels through a Capacity Revision where applicable.

We are supportive of this transitional arrangement where the ratchet occurs as a consequence of the site supporting the Covid-19 response effort.

Implementation

We agree with the proposer that implementation of the modification could be as soon as authority approval is given.

Impacts and Costs

None identified.

Legal Text

We are satisfied that the Legal Text meets the intent of the modification.

Are there any errors or omissions in this Modification Report that you think should be taken into account?

We have not identified any errors or omissions.

Please provide below any additional analysis or information to support your representation

Nothing further to add.

We trust that this information will assist in the compilation of the Final Modification Report. Please contact me on 07884 113385 (andy.clasper@cadentgas.com) should you require any further information.

Yours sincerely,

Andy Clasper
