Dear Sir or Madam,

**Re: UNC 0731S Introduction of an Annual Modification Panel Report**

Thank you for the opportunity to provide representation on the above noted Modification Proposal. Please find below Northern Gas Network's (NGN) comments in respect of this change.

**NGN supports this Modification Proposal.**

**Reason for support/opposition:**

We support this proposal, introducing an annual UNC Panel Independent Chairpersons report, as it would allow for observations, management information and suggested areas of improvement to be presented to the Panel and wider industry. We believe that this furthers Relevant Objective f) *promotion of efficiency in the implementation and administration of the code* as it should facilitate process improvement as any areas, where improvements could be made, can then be further explored via the relevant channels

**Implementation:**

Implementation could be sixteen business days after Panels decision to implement, subject to no appeal being raised.

**Impacts and Costs:**

None.

**Legal Text:**

We believe the legal text provided should deliver the Solution set out in the modification.

**Are there any errors or omissions in this Modification Report that you think should be taken into account?**

None identified.

**Please provide below any additional analysis or information to support your representation.**

None.

I hope these comments will be of assistance and please contact me should you require any further information in respect of this response.

Yours sincerely,

Tracey Saunders (via email)
