Your Reference: UNC Modification Proposal 0784S

UNC Modification Proposal 0784S - Transition to the Central Switching Service and the Retail Energy Code v3.0

Dear Bob,

Thank you for your invitation seeking representations with respect to the above Modification Proposal which Cadent would like to support.

**Do you support or oppose implementation?**

Support

**Relevant Objective:**

- d) Positive
- f) Positive

**Reason for support/opposition:**

The modification enables effective and smooth transition to the Switching arrangements identified within the Ofgem Faster Switching Programme (as per Retail Energy Code version3).

In this way the UNC transactions related to Supplier registration can be transitioned to the REC in an orderly manner.

**Implementation**

As proposer we have identified that the modification needs to be implemented in a timely manner before the start of the transition period and in any event no later than 21 March 2022.

## Impacts and Costs

Nothing further to add.

## Legal Text

As legal text provider we are aware of a minor and non-material discrepancy in the legal text provided ahead of consultation. Rather than use the existing defined terms 'Detail Registration Nomination' and 'Detail Registration Response' the provided text stated '**Detailed** Registration Nomination' and '**Detailed** Registration Response'.

New legal text has now been provided to the Joint Office amending this minor text discrepancy.

## Are there any errors or omissions in this Modification Report that you think should be taken into account?

We have not identified any further errors or omissions.

## Please provide below any additional analysis or information to support your representation

We trust that this information will assist in the compilation of the Final Modification Report. Please contact me on 07884 113385 ([andy.clasper@cadentgas.com](mailto:andy.clasper@cadentgas.com)) should you require any further information.

Yours sincerely,

Andy Clasper
