Representative:	David Mitchell
Organisation:	Scotland Gas Networks Ltd and Southern Gas Networks Ltd
Date of Representation:	7 th February 2022
Support or oppose implementation?	Support
Relevant Objective:	f) Positive
Relevant Charging Methodology Objective:	Not Applicable

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

SGN would like to offer its support for this modification. This modification will amend the UNC following the election by National Grid NTS (NGG) to terminate the provision of the Daily Calorific Value (CV) calculation service to the gas Distribution Network Operators (DNOs) under UNC OAD Section F effective from 01 April 2021. The existing interim service provision by NGG will cease on 30th June 2022.

The changes set out in this Modification are required to ensure the obligations to provide the Daily Calorific Values (CVs) calculation are correctly reflected in the UNC OAD. In future the Central Data Service Provider (CDSP) will determine the daily CV's on behalf of the DNO's for their respective charging areas. Both the DNO's and NGG will provide the relevant data to the CDSP to allow them to facilitate the service, the CDSP will share the output of this process to those parties that currently require the data.

Self-Governance Statement: *Please provide your views on the self-governance statement.*

We believe that this modification fulfils the self-governance criteria as it is unlikely to impact consumers or competition in the market.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

This modification could be implemented sixteen business days after a Modification Panel decision to implement, subject to no Appeal being raised. Implementation of this

Modification and associated Legal Text should align with implementation of the associated DSC Change Proposal XRN5231.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

SGN will experience costs in relation to the development of this modification solution as well as enduring costs to deliver the service which can be found in XRN5231

<https://www.xoserve.com/change/change-proposals/xrn-5231-provision-of-a-fwacv-service/>

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

As legal text provider we are satisfied that the legal text fulfils that intent of the modification solution.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

This change will require approval from the Offtake Communications Committee in respect of updates to the Offtakes Communications Document.

Please provide below any additional analysis or information to support your representation
