**Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)**

WWU supports this modification. This Modification follows on from Modifications 0683 and 0792. The Process for the Update and Retention of Shared Site Drawings have been discussed in detail and agreed by all the GDNs. By adding the Site Drawings process to the list of Offtake Subsidiary Documents will provide the Gas Transporters and National Gas with a uniformed approach for updating the diagrams and there will no longer be several different methods for carrying out the same process.
