

# APPLICATION FOR CONSENT TO MODIFY THE NETWORK CODE

"Increase the number of rounds in the Annual auctions for MSEC"  
Version 1.0

Reference: C089

## Transco Proposal

To address text errors within Section B, paragraphs 2.2.8 & 2.2.14, as contained within the legal text fields in both the Final Modification Report (v1.0) and Notice of Implementation (v1.0) for Modification 0651 "Increase the number of rounds in the Annual auctions for MSEC".

The legal drafting was introduced as part of Modification 0500 "Long Term Capacity Allocation", when the AMSEC auctions were just one round. However, Modification 0651 "Increase the number of rounds in the Annual auctions for MSEC" implemented last year introduced 4 rounds for the AMSEC auctions and the drafting should reflect that 20 bids per ASEP can be submitted for each of the four rounds. The drafting at present suggests that only 20 bids in total per ASEP across all of the rounds are permitted.

Additionally, paragraph 2.2.14 refers to quarterly capacity bids, but should refer to monthly capacity bids.

Therefore, this Consent to Modify should be such that the words "each of the" & "monthly" are inserted so that Section B2.2.8 & 2.2.14 state the following:

## Nature of Modification

*Text extracted from the Notice of (Future) Implementation 0651 (v1.0) published 16/12/2003 and the current Code 'master' Section B, as at update 3.08, 1 July 2004.*
