

APPLICATION FOR CONSENT TO MODIFY THE NETWORK CODE

"Structure of the NTS SO Commodity Charge"
Version 2.0

Reference: C090

Transco Proposal

To address text anomalies within Section B, paragraph 2.11.1, as contained within the legal text fields in both the Final Modification Report (v2.0) and Notice of Implementation (v3.0) for Modification **0626 "Structure of the NTS SO Commodity Charge"**.

These anomalies have come to light as a consequence of the 'staggered' implementation of modifications 0626 & 0680 "Recompense in the Event of Late Completion of Works for New System Entry Points" (in combined Code update 3.05/3.06, as at 1 May 2004), where both aspire to amend the same paragraph B2.11.1.

The legal text now contained within the Final Modification Report and Implementation Notice 0626 requires amending as clearly identified below.

Nature of Modification

Text extracted from the Notice of (Future) Implementation 0626 (v3.0) published 28/07/2003.

SECTION B: SYSTEM USE AND CAPACITY

Amend paragraphs 2.11.1(i) & (ii) to read, :

"2.11.1

- ~~(i)~~ ~~A User shall pay Capacity Charges ("System Entry Capacity Charges") in respect of its Registered System Entry Capacity at Aggregate System Entry Points, and~~
- ~~(a)~~ A User shall, subject to paragraph (b) below, pay Capacity Charges ("System Entry Capacity Charges") in respect of its Registered System Entry Capacity at Aggregate System Entry Points.
- ~~(ii)(c)~~ A User shall pay Commodity Charges ("NTS Entry Commodity Charges"), in respect of the flow of gas into the NTS on any day, or a charge calculated by reference to Special Condition [28B] of the Transco Licence."

Please note: that the paragraph numbering in 2.11.1 has been amended to align with the requirements of Consent to Modify C080.

Transco Application

This application for consent contains Transco's proposal to modify the Network Code and Transco now seeks direction from the Authority in accordance with this application.

Signed for and on behalf of Transco.
