Transco, Shippers and other interested parties.

Dear Colleague,

**CO79 – Application for Consent to Modify Transco’s Network Code for
Modification Proposal 0565 ‘Revision of Network Code Standards of Service’.**

This request for consent seeks to correct a typographical error present in the revised Final Modification Report and legal text relating to Modification Proposal 0565.

Section C, relating to the standards for the provision of Calorific Value information, includes a payment of £50 when Transco fails to provide certain data to Users. The revised Final Modification Report and legal text incorrectly ‘marks out’ this figure. This consent seeks to rectify this error.

Ofgem has considered Transco’s request in accordance with amended standard condition 9 (7) (b) of Transco’s Gas Transporter licence, and consents to the modification of the network code.

If you require any further information on this matter, please do not hesitate to contact me on the above number.

Yours sincerely,

Samantha McEwen
Manager
Gas Network Codes
