

Indicative NTS TO Exit Capacity Charges – 2011/12

Below are the indicative exit capacity charges for the gas year 2011/12, corresponding to the information in Table 5 of the Transportation Charging Statement effective 1 October 2010. The charges are based on the same data sets as the 1 October 2010 exit capacity charges i.e. using the relevant

year's supply and demand from the Ten Year Statement 09 and SD Statement at May 10, respectively. The next anticipated update to exit capacity charges is 1 October 2011. An Indicative Notice of the change will be published at the beginning of May 2011 and a Final Notice at the end of July 2011, two months prior to implementation.

Please note that indicative exit capacity charges for 2012/13 have already been published and are available on our website.

If you have any queries about NTS gas transportation charges please contact our UK Transmission Charging team on **01926 654633** or e-mail to charging.enquiries@uk.ngrid.com.
