Rosie McGlynn	(RM)	British Gas
Simon Trivella	(ST)	Wales & West Utilities
Stefan Leedham	(SL)	EDF Energy

1. Introduction and Status Review

1.1. Review of minutes

The minutes of the previous meeting were approved.

1.2. Review of actions

Action 0358 001: All parties to consider and develop Emergency Interruption scenarios and the aligned responsibilities.

Update: No scenarios were brought to the meeting. **Carried Forward**

2. Discussion

2.1. Emergency Interruption Scenarios

It was reported that RS, the Proposer, had suggested awaiting further clarity from the SCR publications before assessing the modification further. In his absence, it was agreed that the Chair should contact RS to clarify progression of the modification. ST added that the modification may impact performance standards,

which are being reviewed under RIIO, and clarification of the interaction with this process would also be helpful.

With respect to the SCR, AW explained that a report was likely to be published in June or July, and the aim was to issue conclusions in October. Hopefully the principles from the next publication would inform next steps for Modification 0358.

3. AOB

None raised.

4. Diary Planning for Review Group

Future Workgroup meetings will be planned in light of the Chair’s discussion with the Proposer.
