Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

Unidentified gas is of considerable to the industry and we believe that this modification while may not solve the issue may help reduce some of this cost.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

We believe that while shippers are able to identify supplies that are live on Xoserve's systems and are not on their own themselves, we believe that since all the information is being provided to Xoserve they should be able to include this in their report to shippers.
