

## European Developments

Transmission Workgroup  
7<sup>th</sup> February 2013

# EU Interoperability & Data Exchange Network Code

## Interoperability Update

---

- ENTSOG has prepared draft legal text and supporting documentation for its members to review
- TSOs have until 30<sup>th</sup> January to provide comments on the draft Code
- During February, ENTSOG will assess the TSO comments and refine the draft Code for public consultation
- Public consultation is scheduled to take place between late February and late April
- A detailed presentation about the draft Code and potential GB impacts will be provided at the March Transmission Workgroup

# EU CAM Network Code and CMP Guideline – Update

Transmission Workgroup  
7<sup>th</sup> February 2013

## CAM Draft Regulation - Views

---

- From a National Grid perspective the key issues are:
  - Implementation Timelines (Implementation into force) – Article 29
    - Code interactions
    - Implementation of CMP and integration with CAM
    - Code development / change process
    - Scope
    - Gas Day change
    - Bacton ASEP
    - Advanced market in GB.

## CAM Draft Regulation - Views

---

- Scope (Quotas Applied to New Capacity) – Article 2
- Bundling of Cross-border Capacity (Unbundled Capacity) – Article 19
- Bundling of Cross-border Capacity (Mandatory Bundling) – Article 19
- Amending Existing Capacity Contracts (Sunset Clause) – Article 20
- Quotas Set Aside (20% of Technical Capacity Withheld From Sale) – Article 8
- Tariffs – Article 26.

## CAM – Comitology

---

- The first Comitology meeting took place on Thursday 24th January 2013
- Early indications of discussions during Comitology meeting:
  - Member States viewed whole Draft Regulation. Minor changes made during 'Page turn':
    - Quotas discussed in detail – possible changes
    - Bundling discussed in detail – but concept unlikely to change
    - 'Sunset Clause' – still general concerns on the text
    - Various views relating to the implementation period.

## Constraint Management Principles (CMP) Update

---

- GB has to be compliant by 1st October 2013 (July 2016 for Firm Day Ahead UIOLI)
  - Compliance / Impact Assessment continues to be discussed with Ofgem
    - In principle National Grid CMP arrangements already broadly compliant
      - But still continue to focus and work with Ofgem in order to recognise areas where further clarification is required.
  
- Further information please contact [matthew.hatch@nationalgrid.com](mailto:matthew.hatch@nationalgrid.com)

# Code Status Update

Code	Current Status	Estimated Implementation date
Congestion Management (CMP)	Text was published in the European Official Journal on 28 Aug 2012. Ofgem intends to consult on how to implement Congestion Management Principles in GB during [Feb – Mar 2013].	1 <sup>st</sup> October 2013
Capacity Allocation Mechanism (CAM)	CAM code transposed into draft regulation. First comitology meeting held 24th Jan 2013.	2015-2016
Gas Balancing	ENTSOG published the Code on 26 October 2012. ACER reasoned opinion received 26 January 2013.	Q1 2015/Q1 2016 (subject to NRA approval for additional 12 months to implement)
Interoperability	ENTSOG has produced draft legal text for TSOs to review ahead of the formal public consultation on the draft Code which is scheduled to take place between late February and late April 2013.	2015
Tariffs	ACER stakeholder workshop on FGs held 23 January 2013 ( Brussels and Ljubljana). Refinement of FGs/revised draft to be issued 31 January. ACER “open house” 4 February deadline for comments 11 February (noon CET).	TBC (earliest mid 2016)
Incremental Capacity	CEER consultation paper published on 28 June 2012. "Evaluation of Responses + Next Steps" published 3 <sup>rd</sup> December 2012, the next steps are to develop blueprint for incremental capacity Q1 2013	TBC

# Gas Codes Timeline

Future dates are subject to change  
 Dates shown in *italics* are best approximations
