

UNC – Contractual Changes (Gas Day)

Mod 461 WG Meeting 7th November 2013
Hayley Burden

Analysis of Contractual Changes

- **Changes required to approximately 100 Contracts:**
 - NEAs, NExAs, SCAs, Ancillary Agreements, Interconnection Agreements, Pressure Maintenance and Legacy Agreements
 - See table for approximate number of changes required to each Contract (NB. Based on approximately 70% of Contracts analysed to date)

Contract	Number of Changes
NExAs	X 2
NEAs	X 2
SCAs (Storage Connection Agreements)	X 4
Interconnection Agreements	X 7
Pressure Maintenance Agreements	X 7
Ancillary Agreements**	0
Legacy Agreements	Still to be reviewed

**The type of amendments to Interconnector Ancillary Agreements will depend upon whether Agency arrangements are retained or not.

Next Steps

- NG NTS propose to make contractual changes via an enabling UNC Modification or by Bi-Lateral Agreement
- Discuss proposed contractual changes with impacted Users by 30/11/2013 to assist in informing change approach
- Conduct a full impact assessment of all Contracts by 31/12/2013
- If the option to make changes via an enabling UNC modification is selected, the modification will be raised by June 2014
- Future updates to be provided through Ofgem wider impacts workstream

Any questions?
