Draft Modification Report

0440 – Project Nexus – iGT Single Service Provision

Consultation close out date: 21 March 2014

Respond to: enquiries@gasgovernance.co.uk

Organisation: Southern Gas Networks and Scotland Gas Networks

Representative: David Mitchell

Date of Representation: 21 March 2014

Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

SGN supports the implementation of this modification as it will deliver improved arrangements for the management of iGT data. The introduction of a single agent that administers supply points will benefit Shippers and End Users as processes will be aligned with existing arrangements that are in place for Distribution Networks. We believe that this modification plays a part in the success of the impending rollout of smart meters and the need to send information flows to the DCC.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

None

Relevant Objectives:

How would implementation of this modification impact the relevant objectives?

This modification delivers relevant objectives (d) Securing of effective competition and relevant objective (f) Promotion of efficiency in the implementation and administration of the code by removing the need for iGTs to develop and maintain systems to enable them to deliver their obligations to comply with the CSEP NEXa.

Impacts and Costs:

What analysis, development and ongoing costs would you face if this modification were implemented?

SGN will not be directly impacted by the costs in this modification as they will be included in the Project Nexus Costs.

Implementation:

What lead-time would you wish to see prior to this modification being implemented, and why?

0440
