Draft Modification Report

0440 – Project Nexus – iGT Single Service Provision

Consultation close out date: 21 March 2014

Respond to: enquiries@gasgovernance.co.uk

Organisation: Winchester Gas

Representative: Huw Comerford

Date of Representation: 13 March 2014

Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

We support this modification as it will allow a more efficient management of iGT sites by shippers due to the systems for dealing with these sites being mainly offline solutions and manually intensive especially with processes differing between iGTs.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

Relevant Objectives:

How would implementation of this modification impact the relevant objectives?

Impacts and Costs:

What analysis, development and ongoing costs would you face if this modification were implemented?

No impact and cost analysis has been done at present but we can say with a high certainty that any costs involved will be outweighed by the savings.

Implementation:

What lead-time would you wish to see prior to this modification being implemented, and why?

We would like to see a minimum of 1 year lead time to allow for system development and changes.

Legal Text:

Are you satisfied that the legal text will deliver the intent of the modification?

Is there anything further you wish to be taken into account?

Please provide any additional comments, supporting analysis, or other information that you believe should be taken into account or you wish to emphasise.

No
