#### Do you support or oppose implementation?

Support

#### Please summarise (in one paragraph) the key reason(s) for your support/opposition.

We believe that reducing the time period for the change of supply process can only be of benefit to the consumer. By making it easier for a consumer to change supplier could also produce a positive effect on competition.

#### Are there any new or additional issues that you believe should be recorded in the Modification Report?

#### Relevant Objectives:

*How would implementation of this modification impact the relevant objectives?*

We believe this modification would have a positive impact on D – the securing of effective competition.

#### Impacts and Costs:

*What analysis, development and ongoing costs would you face if this modification were implemented?*

#### Implementation:

*What lead-time would you wish to see prior to this modification being implemented, and why?*

The Xoserve proposed development time of 10 months would provide enough lead time for us to implement this, however we would like to see a minimum of 6 months.

#### Legal Text:

*Are you satisfied that the legal text and the proposed ACS (see [www.gasgovernance.co.uk/proposedACS](http://www.gasgovernance.co.uk/proposedACS)) will deliver the intent of the modification?*

Yes

#### Is there anything further you wish to be taken into account?
