#### Do you support or oppose implementation?

Not in Support

#### Please summarise (in one paragraph) the key reason(s) for your support/opposition.

Whilst we support the intent of this modification we believe that responsibility for maintaining accuracy and updating meter information should remain with the Meter Asset Manager and the incumbent supplier.

**Modification Panel Members have indicated that it would be particularly helpful if as part of the consultation process views could be provided on the Workgroup's recommendation that the self-governance status should be reviewed.**

#### Self Governance Statement:

*Do you agree with the Modification Panel's decision that this should be a self-governance modification?*

We do not believe that this modification should be Self Governance as it will have a material impact on Shippers/Suppliers.

#### Are there any new or additional issues that you believe should be recorded in the Modification Report?

No

#### Relevant Objectives:

*How would implementation of this modification impact the relevant objectives?*

Where meter information is updated erroneously this will negatively impact the relevant objective identified in the workgroup report.

#### Impacts and Costs:

*What analysis, development and ongoing costs would you face if this modification were implemented?*
