Consultation on the Development of a Gas Demand Side Response Framework and Methodology for
Use After a Gas Deficit Warning – Response from National Grid Distribution

Dear Claire,

Further to the publication of your consultation document on the 19th December 2014, we welcome the opportunity to provide feedback.

Whilst National Grid Distribution is comfortable with the Framework as identified, there is a concern that the relevant Distribution Network would have no visibility of an accepted Demand Side Response (DSR) Offer. It would be beneficial to the relevant Distribution Control Centre to understand what Offers have been accepted so that they may profile their planned gas usage for the day in a more accurate manner.

Communication to the relevant Distribution Network could be in the form of Fax and/or Email. We would appreciate your thoughts on this matter.

Please contact Shiv Singh [e-mail: shiv.singh@nationalgrid.com and tel: 07580 999 287] if you would like to discuss any of the above.

Yours sincerely,

Chris Warner
Stakeholder Implementation Manager, Distribution
