TPD Section B: System Use and Capacity

B1.1.0 TPD Section B 4.7.13: DM Supply Point Capacity Ratchet Winter 2015/16 Relief

Where, prior to 1 October 2014, (the “**Reference Date**”) an individual DM Supply Meter Point was together with other DM Supply Meter Points comprised in one registered Supply Point (the “**Former Supply Point**”), but following the Reference Date became an Individual Supply Point (the “**Current Supply Point**”) the following provisions shall apply for the period 1 October 2015 to 31 May 2016 (the “**Relevant Period**”);

- (a) If on a Day during the Relevant Period the DM Supply Point Ratchet becomes applicable then the charge will not apply in the event that the provisions of paragraphs 3 to 4 below are applicable;
- (b) A calculation of:
 - (i) The registered Supply Offtake Quantity of the Former Supply Point; and
 - (ii) The registered Supply Offtake Quantity of the Current Supply Pointshall be undertaken;
- (c) Where, within the Relevant Period, the combined UDQO on a Day of the DM Supply Meter Points comprised within the Former Supply Point is lower than the greater of the values in paragraphs (b)(i) or (b)(ii) above then the DM Supply Point Ratchet charge will not be applied;
- (d) Notwithstanding paragraph (c) above, in the circumstance where the Supply Point Ratchet Charge becomes applicable the Supply Point Offtake Quantity of the Current Supply Point will be increased in accordance with provisions of the Code;
- (e) Where a User wishes to seek the application of this DM Supply Point Capacity relief then it shall submit a valid query within timescales applicable to a Invoice Query pursuant to the Code.
