

Output from Project Nexus Legal Text Tracker

The following are areas of concern as highlighted in the PN LT Tracker (Part 3a – 0432 – 160316). A decision has been made as to whether a conflict exists, or not. The legal text provided forms the output and should amend the relevant section of Modification 0432 (Project Nexus – Gas Demand Estimation, Allocation, Settlement and Reconciliation reform).

The structure of the content will be in the form of:

The UNC Modification against which potential conflict exists; Mod 0432 paragraph number; Conflict/no conflict; Instruction; where needed, proposed paragraph number; where needed, proposed legal text.

0428 4.1.4 Conflict – mismatch between Code and 0428 – paragraph does not exist in Code, leave as is, but must amend 4.2.3 as:

4.2.3 Subject to Section M2.8, a Supply Point may comprise no more than one Supply Meter Point and shall be classified as a Class 1, Class 2, Class 3 or Class 4 Supply Point in accordance with Section G1.5.

0428 4.3 No conflict – Currently 'Not Used', leave as is.

0428 4.3.1 Conflict – Renumber to 4.2.4 and Insert a new sub paragraph as:

4.2.4 Subject to Section M3.3.1, a Supply Point may comprise no more than one Supply Meter Point.

0428 4.3 No conflict – Currently 'Not Used', but amend as:

4.3 DM and NDM Supply Points

4.3.1 A Supply Point shall be:

- (a) a “**DM Supply Point**” where it comprises a Class 1 or 2 Supply Meter Point; or
- (b) an “**NDM Supply Point**” where it comprises a Class 3 or 4 Supply Meter Point.

0428 1.6.7 no conflict - Renumber to 1.6.2 & Amend as:

1.6.2 The “Annual Quantity” of a Supply Point and the Supply Point(s) in which it is comprised shall be determined in accordance with the further provisions of this paragraph 1.6.

0428 1.6.9 no conflict - Amend as:

1.6.9 Subject to the further provisions of this paragraph 1.6, the Annual Quantity of a Supply Point shall be determined:

0428 1.6.10 no conflict - Amend as:

1.6.10 Where a Class 3 or 4 Supply Meter Point becomes a Class 1 or 2 Supply Meter Point, the Annual Quantity shall continue to be calculated pursuant to paragraphs 1.6.7(b)(ii) and 1.6.9(b) until the first AQ Calculation Month in which there is an AQ Closing Read for which the target date is not earlier than the date of the change in Class of the Supply Meter Point.

0463S & 0428 no conflict - 1.6.11 Amend as:

1.6.11 Where, following an AQ Calculation Month a Supply Meter Point changes Class, and as a result the method (under the applicable provisions of this paragraph 1.6) of calculating the Annual Quantity changes, the Annual Quantity shall not be revised by reason of such change until the next following AQ Calculation Month.

0428 1.6.12 no conflict - Amend as:

1.6.12 Where a Supply Meter Point is Isolated the value of the Annual Quantity for that Supply Meter Point shall continue to be the value as determined at the date of Isolation, until and unless the Supply Meter Point is Re-established.

0428 1.6.13(a) no conflict - New sub paragraph inserted as:

1.6.13(a) shall be disregarded in determining the target date under paragraph 1.6.7(b);

0428 1.6.13(b) no conflict - New sub paragraph inserted as:

0428 1.7.1 no conflict – Amend paragraph as follows:

0428 1.7.1 Subject to and in accordance with this paragraph 1.7, a Class 1 Supply Meter Point may be comprised in more than one Supply Point if the Registered Users in respect of such Supply Points have submitted to the Transporter a notification confirming that they wish to be sharing Registered Users and specifying (in accordance with paragraph 1.7.6) the basis on which the quantity of gas

offtaken each Day from the Supply Meter Point comprised in such Supply Points is to be apportioned between such Users.

0428 1.7.2 no conflict – no Code update required:

1.7.2 and for the purposes of this paragraph 1.7 a “**relevant**” Supply Point is a Supply Point comprising a Shared Supply Meter Point.

0428 1.7.10(e)(iv) no conflict – Amend text

0428 1.7.13(a) no conflict – Amend text

0428 1.8.7 Conflict – Amend text as:

1.8.7 Where, in relation to any relevant meter at which the Class 1 Requirement applies, there is any dependent meter which is not a Class 1 or Class 2 Supply Meter, the Supply Point comprising the Meter Point at which the relevant meter is installed shall (notwithstanding that the Class 1 Requirement applies and the Class 1 Meter Read Requirements are satisfied, and notwithstanding any other provision of the Code), unless otherwise agreed between the Transporter and the Registered User, be a Class 3 or Class 4 Supply Point.

0428 1.9.8(c) no conflict – Renumber to 1.9.9 and Amend text

0428 1.9.9(a) no conflict – Remove paragraph

0428 1.9.9(a)(i) no conflict – Remove paragraph

0428 1.11.1 no conflict – Amend text as:

1.11.1 Any change in the relevant classification of a Supply Meter Point or Supply Point or a meter reading election in relation to a Supply Meter, shall be given effect only upon and by way of:

(a)

(b)

and the provisions of paragraph 1.5 and Section A4 as to the relevant classification shall be construed accordingly.

0428 1.11.2 no conflict – Amend as:

1.11.2 Where, by virtue of a change in the Annual Quantity, a Supply Point is required (in accordance with any provision of the Code) to be classified differently from the prevailing relevant classification, the Registered User shall make a Supply Point Reconfirmation or Supply Point Amendment to give effect to such revised classification for a Supply Point Registration Date or (as the case may be) amendment date not more than 2 months after:

0428 1.11.3(a) no conflict – Renumber to 1.11.4(a) and Amend as:

1.11.4(a) “**relevant classification**” means the Class of a Supply Meter Point or the classification of a Supply Point as Smaller or Larger;

0428 1.11.3(b) no conflict – Renumber to 1.11.4(b) and Amend as:

1.11.4(b) the relevant date is the date of the change in status of the Supply Point in question, or other date with effect from which the requirement for reclassification first arises;

0428 1.17.3 no conflict – Renumber to 1.17.3(a)(i) & Amend as:

1.17.3(a)(i) in the case of a prospective Supply Point Nomination the details which would be required to be specified pursuant to paragraphs 2.3.2(a) to (c);

0428 1.17.7(d) no conflict – Renumber to 1.17.6(c)(iii) and Amend as:
