Support or oppose implementation?	Support
Relevant Objective:	d) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

Statoil believes this modification will help simplify asset queries and speed up the site works process, it will also help with the calculation of asset charges where National Grid Metering is the MAM, where pressure tier is a factor.

Self-Governance Statement: Please provide your views on the self-governance statement.

We support Self-Governance for this modification.

Implementation: What lead-time do you wish to see prior to implementation and why?

The standard Self-Governance timescales will be appropriate for this modification.

Impacts and Costs: What analysis, development and ongoing costs would you face?

We see no obvious costs to ourselves but would see more efficiency overall.

Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?

Yes

Modification Panel Members have requested that the following questions are addressed:

Q1: Respondents are asked to provide views on the impacts to SPAA parties

We are only I&C TRAS signatory.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*
