<b>Support or oppose implementation?</b>	Support
<b>Relevant Objective:</b>	<b>g)</b> Positive

**Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)**

Implementing this enabling modification should ensure that the Tripartite Agreement between the TSOs at Moffat IP is updated to reflect properly the current arrangements for interruption of the Virtual Reverse Flow capacity product.

**Self-Governance Statement: Please provide your views on the self-governance statement.**

We agree that this should be subject to self-governance.

**Implementation: What lead-time do you wish to see prior to implementation and why?**

We see no clear reason why this self-governance modification should not be implemented sixteen business days after the Modification Panel decision to implement, subject to no Appeal being raised, so that the Tripartite Agreement is up to date.

**Impacts and Costs: What analysis, development and ongoing costs would you face?**

None identified.

**Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?**

N/A

**Are there any errors or omissions in this Modification Report that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

No.

**Please provide below any additional analysis or information to support your representation**

None.
