

23rd August 2005

Julian Majdanski
Joint Office of Gas Transporters
51 Homer Road
Solihull
West Midlands
B91 3JQ

Dear Julian

Modification proposal 0033 – Notification to Users of Emergency Incidents – Impacts on Code Communications

NGN support this modification proposal. As a transporter we welcome any sensible extension of permissible code communication methods.

The retention of the existing communication methods (delivery by post or facsimile), alongside an e-mail facility allows each transporter to utilise the most appropriate method for its own internal processes.

Yours sincerely

Robert Cameron-Higgs
Network Code Manager
