"Provision of a Guarantee of Pressure for Meter Points operating above 21 mbar by  
the Relevant Transporter"

Version 1.0

Dear Julian,

Draft Modification Report 005:Provision of a Guarantee of Pressure for Meter Points  
operating above 21 mbar by the Relevant Transporter

Thank you for providing Scottish and Southern Energy plc with the opportunity to  
comment on the above draft modification report. Looking at the proposal in principle,  
we have had instances where consumers have enquired about guaranteed pressure. In  
such a situation having an agreement directly between the supplier and transporter  
would seem to be appropriate, although this moves away from providing the  
customer with a managed service.

However, whilst we recognise and support the principle of what this modification is  
seeking to achieve we can only, on balance, give this Modification Proposal 005 our  
qualified support to proceed.

I hope that these comments are helpful. Should you wish to discuss any of the points  
raised in our response, please do not hesitate to contact me in the first instance.

Yours sincerely

Garth Graham  
Scottish and Southern Energy plc
