**Response to UNC Modification Proposal 0060 Publication of
Information in the Maintenance Programme**

Dear Tim

E.ON UK supports this proposal. The proposal ensures that those parties, which are directly associated with affected Supply Points will receive information in a timely manner, whilst maintaining commercial confidentiality.

We agree with the Proposer that this will allow relevant parties to better coordinate their planned activities with the Transporter, which would enhance the efficient and economic operation of the pipeline system, thus facilitating relevant objective A11.1 (a).

Yours sincerely
